## NOTICE OF APPLICATION TO APPROPRIATE WATER BY PERMIT

**APPLICATION: 31126  
2001**

**DATE FILED: January 16,**

Notice is hereby given that Joseph P. and Nancy J. Schoendorf have filed an application for a water right permit for diversion of water from an Unnamed Stream (aka Redwood Creek), tributary to the Pacific Ocean in Monterey County. The proposed diversion and place of use are near Julia Pfeiffer Burns State Park. The State Water Resources Control Board (SWRCB) will determine whether a water right permit should be issued for the application and, if so, whether conditions should be included in the permit to protect the environment and other downstream water users. This notice provides a description of the proposed project and also describes the procedure and time frame for submittal of a protest against the application. This notice and future notices of applications to appropriate water by permit, may be viewed and printed from the Division of Water Rights (Division) web-site at [www.waterrights.ca.gov](http://www.waterrights.ca.gov). Any correspondence to the applicant shall be mailed to:

### DESCRIPTION OF THE PROJECT

The applicants are seeking a right to appropriate water at a rate of 0.18 cubic feet per second (cfs) by direct diversion, not to exceed 75 acre-feet (af) annually. The diversion will take place from January 1 through December 31. The water will be used for domestic purposes serving three residences, irrigation of 14 acres, watering of up to four horses, and incidental fire protection.

The proposed project will divert water from an existing weir on an Unnamed Stream (aka Redwood Creek) using an existing 2-inch pipeline to four existing removable regulatory tanks. The Unnamed Stream is tributary to the Pacific Ocean in Monterey County.

According to Water Code section 1348, a minor project diverts less than or equal to 3 cfs by direct diversion or 200 af per year by storage. A major project diverts greater than 3 cfs by direct diversion or 200 af per year by storage.

**This is a "minor" project (less than 3 cfs by direct diversion or 200 af per year by storage) as defined by section 1348 of the Water Code.**

Any person may file a protest against the application. Protests should be submitted on standard protest forms available from the Division's web-site at [www.waterrights.ca.gov/forms/](http://www.waterrights.ca.gov/forms/), but can be submitted in letter form. A pamphlet that provides additional information relating to water rights and the procedure for filing protests can be obtained from the contact person listed below. The protest should be submitted to:

State Water Resources Control Board  
Division of Water Rights  
P.O. Box 2000  
Sacramento, CA 95812-2000

**In addition, the protestant must send a copy of the protest to the applicant.**

Protests filed in response to this notice must either be postmarked, or received in the office of the SWRCB's Division of Water Rights (1001 "I" Street, 14<sup>th</sup> Floor, Sacramento, CA) **by 3:00 p.m.** on the **40<sup>th</sup> day** after the date of this notice. Due to the constraints of the noticing period, protests may be filed by FAX at (916) 341-5400. However, an original copy of all materials must be received for the SWRCB to consider your protest. For good cause, the SWRCB may grant an extension of time to file a protest. ### **PROTEST REQUIREMENTS**

Parties may file protests based on any of the following factors:

- Injury to existing water rights.
- Adverse environmental impact.
- Not in the public interest.
- Contrary to law.
- Not within the jurisdiction of the SWRCB.

All protests must clearly describe the objections to approval of the application and the factual basis for those objections. If the objection is based on injury to existing water rights, the protest must describe the specific injury to the existing water right that would result from approval of the application. In addition, the party claiming injury to prior water rights must provide specific information that describes the basis of the existing right, the date the use began, the quantity of water used, the purpose of use and the place of use. Please note that any water right permit issued by the SWRCB is subject to and includes conditions to protect vested water rights.

If the protest is based on environmental grounds, or other factors listed above, the protest must be accompanied by a statement of facts supporting the basis of the protest. The protest shall include a description of any measures that could be taken to resolve the protest, including modification of the application (i.e., amount, season of diversion, etc.) or conditions (i.e., fish bypass flow, measuring device, etc.) that could be included in the water right permit. If sufficient information is not submitted, the SWRCB may reject the protest or request that the protestant submit additional information.

### **RESOLUTION OF PROTESTS**

The protestant(s) and the applicant are encouraged to discuss methods that could be used to resolve the protest. If the protest(s) can not be resolved, the SWRCB may conduct a field investigation for minor projects, or hold a water right hearing for major projects.
